Recurring Service Schedule

The screenshot shows the RIGER software interface for a delivery ticket. The main window displays the ticket details: DT-000136, dated 11/09/2015 at 21:23, of type Service, dispatched by Michael Maltsev. The client is Shell, and the well/LSD is Shell Gas Plant. A table under 'Rental Equipment' shows one item: 'Inspect Subs'. A dialog box titled 'Recurring Service Schedule' is open, allowing configuration of the service frequency and days. The 'Weekly' option is selected, and the days Monday, Wednesday, and Friday are checked. The time is set to 10:00.
